

Public Input on Lamar CISD Attendance Boundary Committee Recommendations for Secondary (6-12) Attendance Zones

Fulshear High School and Leaman Junior High School will open for the 2016-2017 school year. The Lamar CISD Attendance Boundary Committee (ABC)—made up of community members—will make its zoning recommendation to the Lamar CISD Board of Trustees for new attendance boundaries.

The ABC is seeking input from families living in the affected areas before it makes its final recommendation to the Board of Trustees. A public input meeting will be held July 27 at 7 p.m. in the Rogers Auditorium at Foster High School, located at 4400 FM 723 in Richmond.

The input will help the ABC finalize its recommendation to the Board of Trustees. The recommendation will be based on the latest demographic projections, facility capacity, student enrollment numbers and optimal utilization of existing facilities. The ABC also looked closely at the current and projected trends, trying to alleviate overcrowding, while minimizing the movement of students from existing zones.

The consensus of the committee was to move forward with the boundary recommendation shown below.
