The Seguin students continue to do a great job of returning their library books each week. Please remember the importance of reading to your children. Don't forget to read to them at every opportunity you have. Children are eager to learn, and reading is one of the basic and simple ways to improve literacy, language, and cognitive skills. When you read to your child, follow up by asking questions about the story! Reading is to the mind what exercise is to the body. Help them flex their brains with a great story – every single day.
