

What is Career and Technical Education (CTE)?

- Encompasses 94 percent of high school students and 8.4 million individuals seeking postsecondary certificates and associate degrees in CTE fields.
- Is delivered flexibly through high schools, area career centers, career academies, community and technical colleges, four-year universities and more.
- Educates students for a range of career options through 16 Career Clusters® and 79+ pathways.
- Offers clear pathways to industry certifications, postsecondary certificates and degrees.
- Partners with businesses to prepare students for tomorrow's workforce.
- Fulfills employer needs in high-skill, high-wage, high-demand areas.
- Prepares students to be college- and career-ready by providing core academic skills, employability skills and technical, job-specific skills.

CTE Works for Business

CTE addresses the needs of industries and helps close the skills gap.

- Almost half of the energy workforce may need to be replaced by 2024, and demand for solar and wind energy technicians will double.
- Half of all STEM jobs call for workers with less than a bachelor's degree.
- Health care occupations are projected to grow 18 percent by 2026, adding more than 2 million new jobs.
- 3 million workers will be needed for the nation's infrastructure in the next decade, including designing, building and operating transportation, housing, utilities and telecommunications.
- More than 80 percent of manufacturers report that talent shortages will impact their ability to meet customer demand.

LAMARCISD

A PROUD TRADITION | A BRIGHT FUTURE

Career and Technical Education

Why Connect?

- Connect business and industry with education.
- Work directly with and impact students.
- Help prepare and develop a skilled workforce; have access to this same workforce.
- Collaborate directly with teachers on quality and relevant education.

CTE provides career pathways for all students utilizing real world practices, evolving skill sets, attitudes and behaviors

Agriculture, Food & Natural Resources

Business Administration

Health Science

Information Technology
