

LCISD SERVICE CORD GUIDELINES

Service Cord is a volunteer organization which requires students to provide time and energy serving the surrounding communities. The program's purpose is teaching students about responsibility, accountability, selflessness, showing appreciation, being shown appreciation, and giving to those in need.

Definitions:

- Community: the service should impact the greater community
- Service: involves unpaid service or help that is given to the community without any expectation in return
- Donations: items of monetary value are considered donations whereas service hours are a giving of one's time in service to the community
- Non-profit Organization: a group organized for purposes other than generating profit and in which no part of the organization's income is distributed to its members, directors, or officers.
- Volunteerism vs Service Hours: while volunteerism and service hours can be synonymous students should note that not all opportunities labeled Volunteer or Service Hours may qualify for Service Cord

- Students are allowed to start tracking service cord hours the summer before 9th grade.

- LCISD Administration will continue to address the impacts of COVID, including continuing to monitor service hour opportunities and progress toward Service Cord Awards.
